

A Trip That Changes Lives...Theirs And Yours

Join Pure Water for the World in Honduras: June 14-20, 2020

"I fell deeply in love with Honduras; the people, the scenery, and the attitudes of those around me. It was profoundly impactful to spend time in family homes, installing filters that will improve their lives forever. Pure Water for the World does amazing work, providing life-changing safe water solutions to children and families who need it most. I strongly recommend this experience."

WHY VOLUNTEER WITH PURE WATER FOR THE WORLD IN HONDURAS?

Safe water, sanitation and hygiene change everything! Historically, over 98% of families living in the rural, underserved Trojes region of Honduras *only had access to contaminated water*. More than 50% of the families lacked access to safe sanitation facilities. Waterborne illnesses and deaths have been widespread, particularly among young children. *PWW is helping to change this*. Since 2009, PWW has delivered comprehensive safe water programs to over 120 of the 300+ communities in Trojes, reaching more than 25,000 people!

YOU will be part of the solution. When children and their families are able to drink safe water and practice safe hygiene, they experience vastly improved health. With improved health comes the ability for children to go to school and achieve an education, opening new doors to their future. Parents are able to work and support their families. And, entire communities experience greater prosperity. Your participation will directly support this *transformative and lasting* change.
