

## A New Volunteer Experience in Honduras

Participate in PWW's Expansion into Maraita: October 18-24, 2020

*“What if you had no other option but to give your child THIS water to drink? For many in Honduras this is reality. This bottle of water is from a school in the community of Maraita. This bottle is what the children were washing their hands with...but more important, **THIS is what they were drinking!** I'm thrilled to report that PWW is now bringing clean water, sanitation and hygiene education to this community! These sweet children will no longer have to drink this water!”*

– Eric Johnson, PWW Volunteer and PWW Trip Leader, Honduras

### WHY VOLUNTEER WITH PURE WATER FOR THE WORLD IN MARAITA, HONDURAS?

PWW has been successfully implementing comprehensive WASH programs (Water, Sanitation & Hygiene), in the most rural and underserved communities of Honduras for over 10 years, reaching 40,000+ people.

In October 2019, PWW began work in Maraita, Honduras, a region identified as “high-need” and located just an hour’s drive from the capital city of Tegucigalpa. Residents of Maraita severely lack access to basic necessities. PWW will partner with the 16 villages to provide programs to the families and schools that have been waiting many, many years to gain reliable access to safe water and sanitation. This will be PWW’s inaugural volunteer trip to Maraita. Learn about Maraita at: [www.purewaterfortheworld.org](http://www.purewaterfortheworld.org).

When children and families are able to drink safe water and practice safe hygiene, they experience vastly improved health. With improved health comes the ability for children to go to school and achieve an education, opening doors to their future. Parents can work and support their families. And, entire communities experience greater prosperity. ***Your participation will directly support this transformative and lasting change.***

### TRIP HIGHLIGHTS:

- ◆ Travel to Maraita, Honduras (*local schoolchildren pictured*).
- ◆ Install clean water filters in family homes & local schools.
- ◆ Build latrines and hand-washing stations at local schools.
- ◆ Participate in community-wide anti-parasite administration.
- ◆ Interact with children and families, and experience Honduras.
