

2021 ANNUAL REPORT

SAFE WATER IS "SUCH A BLESSING"

Pure Water
FOR THE WORLD

Dedicated to Safe Water, Sanitation & Hygiene for All.

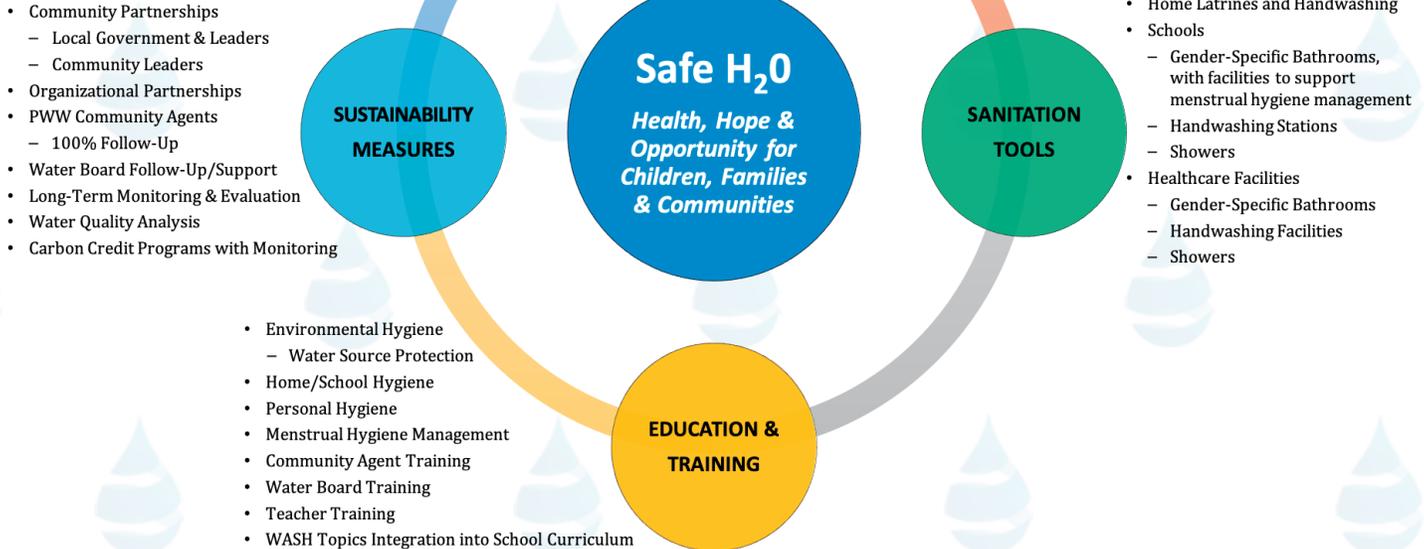

Our Mission:

Pure Water for the World's mission is to improve lives by empowering people with access to life's most basic necessities: safe water and sanitation.

WASH IMPLEMENTATION PROGRAMS:

Collaboration + effective tools + essential education + long-term monitoring.

The diagram demonstrates the many components that go into implementing a safe water, sanitation and hygiene (WASH) program. Each integrates with one another, providing a solution that supports the elimination of waterborne illnesses and the foundation for health, hope and opportunity.

BOARD STATEMENT

The year began with the COVID-19 virus continuing to cause disruptions around the world. With safe water, sanitation and healthy hygiene practices critical to preventing spread of the virus, PWW staff quickly adapted and improvised, administering virtual trainings when possible and using protective equipment and safe practices when out working in family homes, schools, and communities.

During this same year, two category four hurricanes stormed through Trojes, Honduras, where PWW staff live and work, causing widespread devastation. PWW was called upon to provide disaster relief, including restoring access to safe water for thousands.

In addition to a pandemic and natural disasters, persistent political unrest and gang activity in Port-au-Prince prevented our Haiti staff from traveling to communities in the southern region. However, we were able to successfully launch a project in Limonade, located in northern Haiti, that will reach hundreds of families with reliable access to safe water. This project is opening new doors of opportunity for our WASH programs in Haiti, and we anticipate even greater expansion of our programs in Limonade in the coming year.

This year also brought tremendous growth with our teacher and school training programs. We are thrilled about the progress being made with integrating WASH concepts into schools and look forward to further growth of these impactful programs in FY2022.

In the face of extraordinary obstacles, PWW ended FY2021 by reaching 24,744+ individuals. Our work is only possible because of the generous and steadfast support of our incredible donor community.

On behalf of PWW's Board of Directors, thank you for your partnership and commitment to *safe water, sanitation and hygiene for all*. Wishing you and your loved ones good health and prosperity now and in the days to come.

ROBERT MOHR
Board President

2021 IMPACT HIGHLIGHTS

COMMUNITY PARTNERSHIP

- 20 Communities
- 1,685 Family Homes
- 32 Schools
- 24,744+ Individuals Served

EDUCATION

- 128 Community WASH Workshops
- 95 Community Agents Trained
- 15 Community Water Boards Trained
- 30 WASH Training Workshops, 994 Participants
- 23 Technical Support Sessions, 191 Participants

TOOLS

- **Homes:** 1,134 Ceramic Water Filters, 431 Biosand Water Filters, 221 Single-Family Latrines, 100 Rainwater Harvesting Tanks
- **Schools:** 32 WASH Stations (handwashing + latrines), 10 Latrines, Six Handwashing Stations, 26 Rainwater Harvesting Systems
- **Migration Shelters:** Two Shelters, Two Water Storage Tanks, Seven Latrines, Handwashing Stations, Showers, 500 Hygiene Kits,
- **Health Clinic:** One Health Clinic WASH Station with Shower, Two Bathrooms with Toilets & Sinks, Water Tank

FOLLOW-UP

- **Baseline Surveys:** 294 Homes + 93 Schools
- **Monitoring/Supervised:** 559 Homes + Two Schools

HONDURAS: HURRICANES ETA & IOTA

In the span of just two weeks, two destructive hurricanes ravaged through the Trojes region of Honduras, where PWW teams live and work. The storms caused tremendous damage, tearing down hillsides, washing out roads, demolishing family homes and farmland, and destroying safe water and sanitation systems. Communities across the region were faced with significant setbacks. There was grave concern about the lack of access to clean water, sanitation and hygiene and the potential spread of diseases.

PWW joined local government officials, SANAA (Honduras National Agency of Water and Sanitation), community and health leaders, and the local Catholic Church to determine and prioritize needs to help families.

With generous support from Rotary Clubs and Rotarians in Honduras and the US, AWT (Association of Water Technologies) and its members, Clarke Cares Foundation, Mergens Foundations, and hundreds of individual donors, PWW is working with community members to restore access to safe water and sanitation for the thousands of individuals impacted. This relief work is expected to continue through 2022.

HONDURAS: WHEN SHE GROWS UP

In celebration of Menstrual Hygiene Day, PWW interviewed girls who live in Maraita to learn about their dreams for the future...

- Fabiola is 11 years old. Her favorite color is electric blue. When she grows up, she wants to be a lawyer.
- Fernanda is 7. Her favorite color is pink. When she grows up, she wants to be a preacher.
- Diana (pictured with her family) is 14. Her favorite color is pink, and she wants to be a stylist when she grows up.
- Shirley, Isis and Shadia, 12-year-old triplets, all share an interest in studying medicine.

With reliable access to safe water and sanitation at their homes and in their schools, combined with the ability to confidently manage their hygiene and monthly menstrual cycles, these blossoming young women are empowered to stay in school, achieve an education, and reach for their dreams!

HAITI: WATER IS SUCH A BLESSING

My name is Ms. Jean-Jacques. I am 46 years old. I have been living in a rural community in Leogane, Haiti for 10 years. As you may know, our region is one of the most vulnerable in the country of Haiti.

Water isn't supposed to be a luxury, due to the fact that no one can live without it. But, the water that we have access to here, that our children gather in the river, is literally killing our people.

*When we heard about PWW and the work they were doing, we were so excited. For me, and the people in my community, it was **such a blessing**.*

We quickly learned what safe water tastes like. Then, we started to realize a huge decrease of a number of diseases in our neighborhood.

I am so happy. I feel like a privileged person now! It is hard to say this, since water is not supposed to be such a big deal, but PWW's water program has changed my life and the lives of my family members!

I hope it will do the same for the rest of my people in this country, suffering so much, waiting for safe water.

Jesula Jean-Jacques is a single mother. She and her children live in Bernard, Haiti

HAITI: EXPANDING WASH PROGRAMS IN THE NORTH

Thanks to funding from Rotary International and many passionate Rotarians, this year we began a WASH project that will bring 400 families reliable access to safe water in their homes for the first time ever! The comprehensive project includes WASH training for all families and Community Agent training to advance local WASH capacity and empower community members with the knowledge to protect their health.

The 400 families live in the communities of Pistère, Déreal and Campeche, which are located in the Limonade commune near Cap-Haïtien (the largest city in northern Haiti). People living in these communities suffer from a severe lack of access to safe water and sanitary infrastructure. Water-related illnesses, including typhoid, persistent diarrhea, intestinal parasites and worms, skin diseases, and many infections are chronic and widespread, heavily impacting children and adults throughout the region.

We plan to continue advancing WASH programs in the Limonade region. Look for more information to come in the new year.

“When we drink the filtered water, it keeps us healthy.”

Pierre Arloude lives in Pistère with her two children. Her family has been part of the 400-family project. Ms. Arloude no longer has to spend money to purchase clean water, freeing up these precious funds for other essentials, like food and school fees for her children. She offers her heartfelt gratitude to PWW and to the generous donors who made this life-changing project possible.

WORKING TOGETHER: PARTNERSHIPS IN ACTION

PWW was selected by UNICEF Honduras to conduct work in the “dry corridor” of El Paraiso, a region known for drought. As part of a comprehensive program, our team trained water boards and helped establish water security plans. They repaired water systems and constructed rainwater harvesting systems to provide sufficient water quality and quantity. They installed ceramic filters, which require less water than biosand filters, and delivered training to families and schoolteachers, reaching more than 7,300 people.

In collaboration with our partner, Soaring Unlimited, the PWW Haiti team designed and constructed a beautiful WASH station at Soaring’s Medical Clinic, located in Pistère. The facility is complete with water, a tiled shower, and two private bathrooms with toilets and sinks. It will support patients and visitors to the clinic and their new birth center.

The PWW Honduras team found themselves helping families from Haiti. As part of ongoing migration, Haitians (along with others) began coming through Trojes, an entry point to Honduras from Nicaragua. Lacking adequate facilities to accommodate the large number of migrants, UNICEF Honduras engaged PWW to help with providing safe water, sanitation and handwashing facilities, and hygiene supplies. This work addresses the health of migrants and protects the health, safety and sanitation of the Trojes community.

SUPPORTERS SHARE HEALTH, HOPE & OPPORTUNITY

H2O VIRTUAL AUCTION.

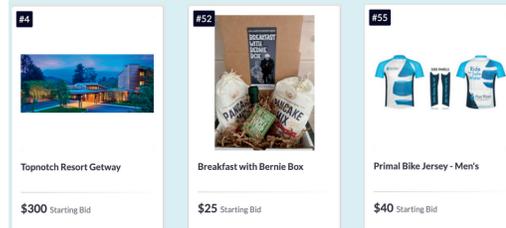

In celebration of World Water Day, March 22nd, PWW hosted the first *H2O=Health, Hope & Opportunity Auction*. With a robust online auction platform, generously provided to PWW by AWT (Association of Water Technologies), bidders enjoyed shopping, bidding and giving, all from the comfort of their own homes. Items donated ranged from handcrafted jewelry and specialty foods, to beautiful artwork and unique destination vacations. Auction donors and participants helped PWW raise >\$7,500.

RIDE FOR SAFE WATER.

Bike riders from across the country joined forces, virtually, for this year's *Ride for Safe Water*. Participants pedaled on Pelotons, road bikes, cruisers and mountain bikes all working hard to raise money for safe water programs.

“Ride for Safe Water helps to benefit a great cause. We all need water, and I get to bring awareness to the fact that so many lack access to water while training harder than I usually do during the summer, so it is a win-win! I am healthier...and so are the people who get safe water because of the donations my ride is bringing in.”

- Shawn Foster, whose *Ride for Safe Water* adventure was a century (100 miles) from Stowe to Ludlow, VT.

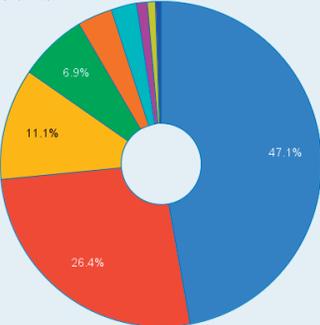

THIS SUMMER...RIDE FOR SAFE WATER

FINANCIAL OVERVIEW

Income

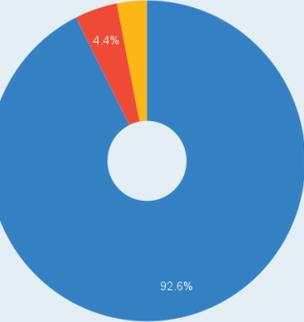

\$1,409,984

- Industry Partners - \$664,471 (47.1%)
- Individuals - \$371,863 (26.4%)
- Grants/Foundations - \$156,217 (11.1%)
- Businesses - \$97,052 (6.9%)
- Rotary - \$49,177 (3.5%)
- Program Sales - \$36,332 (2.6%)
- Investment Income - \$15,422 (1.1%)
- Churches & Schools - \$11,859 (.8%)
- Other Income - \$7,594 (.5%)

Expenses

\$1,472,911

- Program Expenses - \$1,363,583 (92.6%)
- Administration - \$64,124 (4.4%)
- Fundraising & Development - \$45,204 (3.1%)

Financial Position

- **ASSETS: \$1,069,849**
- **LIABILITIES: \$507,232**
- **NET ASSETS: \$562,617**
 - RESTRICTED: \$0
 - UNRESTRICTED: \$187,617
 - BOARD DESIGNATED FUNDS: \$375,000

CHARITY RATINGS

Committed to donor trust and transparency, PWW achieved accreditation by the BBB Wise Giving Alliance. This achievement exemplifies that PWW has met and/or exceeded key standards of board oversight, finances, results reporting, and fundraising appeals.

"By achieving accreditation, Pure Water for the World has earned public trust having demonstrated its commitment to sound governance, transparency and achieving its mission."

- Art Taylor, president and CEO of the BBB Wise Giving Alliance

This BBB accreditation signifies that PWW is deserving of donor trust as they are a well-run nonprofit organization.

PWW also achieved a score of **100/100** from **Charity Navigator's Encompass Rating** and **Guidestar's Gold Seal of Transparency**.

STRATEGICALLY ADVANCING

PWW Board of Directors completed the FY2022-2026 Strategic Plan. Highlights include:

- Expand PWW's operating model in countries PWW serves.
- Further incorporate institutional WASH into programming, advancing WASH-in-healthcare facilities and working with local and national government entities to support the integration of WASH into school curriculum.
- Enhance monitoring, evaluation and learning (MEL) framework for short- and long-term WASH impact evaluation and program improvement.
- Grow impact in Central America by extending WASH training and consulting services (including virtual) to build the WASH capacity of other entities.
- Codify disaster recovery/emergency response programs by establishing country-specific plans that provide guidelines and procedures to effectively, judiciously respond to natural disasters/emergency.

JOIN THE MISSION

For more than 20 years, PWW has held the vision of a world in which all people have safe water, proper sanitation and the knowledge to sustain it for future generations.

Through the provision of safe water and sanitation tools and extensive hygiene educational training, we continue our commitment to end the senseless suffering, illnesses, and deaths among young children and their families caused by preventable waterborne diseases. Your support makes this life-changing work possible. We invite you to join us in our mission.

- Make a Financial Donation: Check. Credit Cards. Venmo. Paypal.
- Become a *Pure Water Warrior*. Join monthly giving program.
- Planned Giving: Create your legacy.
- Fundraise: *Ride for Safe Water. Jump for Safe Water. Birthday Fundraiser*. Or, start your own.
- Join the H2O Virtual Auction: Donate. Bid. Purchase.
- Volunteer. Take part in the action.
- Donate Unwanted Vehicle(s).
- Give In-Kind.
